

# Abhay Ginoya

## OBJECTIVE

I love to work with new technologies, learning new tools, working on new innovative frameworks and making the overall Software Development process optimized and efficient.

## SUMMARY

- I am a software engineer with more than 2+ years of experience.
- I have knowledge in technologies like Flutter, Dart, Firebase, Restful APIs, Google Maps, Google ads, Social login, local database (SQLite), Interceptor, Work Manager, Crashlytics, Analytics.
- Expertise in creating both types of widgets that can be reused throughout the application and excellence in managing states of the app throughout the system.
- Strong command of GitHub, Gitlab, Skype, Slack, Jira, etc. A good team member with excellent communication and logical skills.
- I like to upgrade my skills as per the project requirements.

## TECHNICAL SKILLS

Programming Language	Flutter, Dart, Kotlin, Swift
Operating System	Windows, MacOS
Payment Gateway	Razorpay, Stripe, Paypal
Version Control	GitHub, GitLab
Project Management Tools	JIRA

## KEY PROJECTS

Project Name	Bookestan
Description	Bookestan is established to create a platform and connect Audiobook producers in Persian language to the Farsi speaker all around the world. We are proud to name ourselves the first platform that allows Farsi speakers to purchase such a product on international scale.
